THE TRIANGLE CLUB.

Interesting Debate Held on Question

of Railroad Ownership The members of the Triangle Liter-

ary Club are keeping abreast of the events occurring around them. At their meeting last evening the feature was a debate on the time-worn question, Resolved, That Municipal Ownership of Railroads and Tramways Is Beneficial."

The arguments were interesting. The negative contended that if the Government controlled the railway systems there would be no improvement or advancement. Why this would be the case they forgot to state.

The leader of the affirmative in a forceful and impassioned reply denied the contention of the negative. He drew an awful example from the present local tramway.

"Improvement! Advancement!" he said. "Those elements are conspicuous by their absence in Honolulu's street-railway service. I am a disinterested person, but you all know that if the Tramways Company could get of two they would do it."

The judges were T. McCants Stewart, William Templeton and John Moore. Their decision was unanimous in favor of the affirmative. E. Farmer and W. G. Hall supported the affirmative, H. E. Coleman and W. A. Ram- FREE RECLINING CHAIR CARS. say the negative.

John Catton read an admirable essay on Scottish scenes, and C. R. Frazier skillfully manipulated the gramophone for several selections. Dr. Garvin took a flashlight picture of the members. Two new names, Arthur Sunter and J. Lenox, were added to the membership roll.
